

Synod 2021-2023.

Thanks to all those who have contributed so enthusiastically to our planned listening sessions, and for contributing your thoughts regarding the future direction the church should take. The first stage of our listening sessions will be complete after a session with the parish council on 9th December. We have been pleased to hear from participants who have found the sessions both rewarding and interesting. Meanwhile the deadline for gathering your views has been extended by several months, and we are considering what further initiatives might be useful to accommodate those who would still like their voices to be heard. One possibility might be to arrange a further listening session at a convenient time. Please feel free to contact us via the parish office (with "Synod" as the title of any emails), if you might be interested in this option. Meantime we will continue to think about what more might be done to gather as many views as possible.

Phil Kerton and Anne Inman.
